

Salt dough Christmas ornaments

Last Christmas the children and I decided that we would make our own Christmas tree ornaments. They were easy to make and very satisfying to decorate!

The only decision we needed to make, before buying the ingredients, was decide whether we wanted white or cream ornaments?

WHITE ORNAMENT DOUGH

Better Than Salt Dough (Homemade Clay for Ornaments or Handprints)

4 Ingredients

Baking & Spices

1 cup Baking Soda
½ cup Cornstarch

Liquids

¾ cup Water

Snacks

1 Cookie cutters

CREAM ORNAMENT DOUGH

Salt Dough Recipe

- 2 cups flour (plus more for rolling out)
- 1 cup of salt
- ¾ to 1 cup of water (more or less).
- Toothpick for making the holes for hanging.
- [Jute twine](#) or ribbon or String for hanging.

We had a lot of fun making these with other children in our church community. Below are a couple of pics from the batch we made. We did not bother baking them, instead let them air dry for 5 days. So make the dough and cut the

shapes one weekend and decorate the next!

There are so many recipes and so many ideas on Pinterest. If you search 'Christmas salt dough ornaments', you will not be disappointed... maybe delightfully overwhelmed! 😊

Interestingly we still have a lot of undecorated ornaments in our Christmas box. They've lasted a year! We will be taking these out soon to start a new collection!
